## CONSTRUCTION CO.

### CAPABILITIES STATEMENT

#### ABOUT US

Aspen Construction Co. founded in 1992, is a SBA Certified HUBZone contractor headquartered out of Northern Minnesota, providing specialized heavy civil and environmental construction services to the Commercial and Governmental markets. We have found our success in project efficiency, work ethic persistence and innovative construction methods to complete contracts under budget and ahead of schedule.

- 100+ years of combined experience

*Eastern Federal Highway Mid-Atlantic  
MATOC Contract Holder*

#### DIFFERENTIATOR

Our remote location and harsh winters in Northern MN generally haults construction during the winter seasons creating an internal drive within our company to provide the most efficient methods of construction and a "do it right" the first time attitude during the summer months when construction is in season. We have applied this viewpoint towards our work as we continue to pursue contracts across the nation.
